

Tanishk Chaudhary

Greater Noida, INDIA 201310 | +91 9258439886 | tanishktewetia@gmail.com

SUMMARY

Innovative and detail-oriented **Computer Science and Engineering student with specialization in Artificial Intelligence & Machine Learning (AIML)**, passionate about crafting impactful digital experiences. Skilled in **full-stack web development, custom admin panel creation, and desktop application design** using modern technologies like HTML5, CSS3, JavaScript, PHP, C#, and Qt C++. Adept at UI/UX design, SEO optimization, and creative branding through tools like Canva. Experienced in deploying and managing websites on **Azure** with custom domains, ensuring seamless performance and security. Committed to delivering high-quality solutions, whether for individuals, businesses, or startups, and driven by the belief that technology should be both functional and beautiful.

SKILLS

- **Web Development** – Proficient in building responsive, user-friendly, and visually appealing websites using HTML5, CSS3, JavaScript, and advanced PHP.
- **PHP Development** – Strong expertise in creating dynamic and functional web applications, including form handling, data processing, and custom backend solutions.
- **Frontend Design & UI/UX** – Skilled at crafting clean, modern, and intuitive interfaces with a focus on user experience.
- **Backend Integration** – Experienced in integrating MySQL databases, email services, and secure admin panels without relying on heavy frameworks.
- **WinForms Application Development** – Knowledgeable in building Windows desktop applications using C# and Qt C++.
- **Graphic & Poster Design** – Creative in designing branding materials, posters, and promotional content using Canva.
- **Custom Admin Panel Development** – Ability to build secure, functional, and easy-to-manage admin dashboards using JSON-based data storage.
- **Search Engine Optimization (SEO)** – Basic knowledge of optimizing websites for better visibility on Google search.
- **Hosting & Deployment** – Experience deploying websites on Azure, InfinityFree, and GitHub Pages, including domain integration via Namecheap.
- **MySQL Database Management** – Skilled in designing, creating, and integrating MySQL databases into web applications.
- **FTP & File Management** – Proficient in using FileZilla for uploading, managing, and organizing files on hosting servers.
- **Single-Page Applications** – Experience hosting and managing single-page web projects, such as interactive polls, for public access.

EXPERIENCE

Freelance Web Developer | 03/2024 -Current Self-Employed|Greater Noida,India

- Partnered with clients to understand their vision, business goals, and brand identity, translating concepts into fully functional, visually compelling websites.
- Designed and developed responsive, mobile-friendly web pages using HTML5, CSS3, JavaScript, and PHP, ensuring seamless performance and an optimal user experience across all devices.
- Built a professional portfolio website from the ground up, featuring a custom admin panel for managing projects, services, and personal details — implemented entirely without database dependencies for lightweight performance.
- Successfully deployed websites on Microsoft Azure, configured custom domains via Namecheap, and set up SSL certificates to ensure secure, trusted browsing experiences.
- Managed complete hosting setups, including DNS configuration and optimization for speed, reliability, and uptime.
- Applied effective on-page SEO strategies to enhance search visibility and improve rankings on Google.
- Delivered clean, maintainable, and well-documented code, with a focus on performance optimization, scalability, and long-term maintainability.
